IN CLINICAL SUPERVISION

CLINICAL  
SUPERVISION  
SERIES  
2014

High quality, simulation based, face to face training day for intermediate level clinical supervisors of students and trainees, focussing on interview techniques.

## workshop

The course addresses a range of challenges faced by supervisors and students including fitting into the ward environment; goal setting; understanding limits of ability; asking for help; performance appraisal and feedback and dealing with unfavourable feedback from students. Activities include supervisor resources.

HETI is looking for Staff from professions of allied health, nursing and midwifery, and medicine, who have a direct role in clinical supervision or simulation faculty who have a direct role in training clinical supervisors.
