

Fines for littering!

Throwing rubbish on the ground instead of putting it in the bin is called 'littering'.

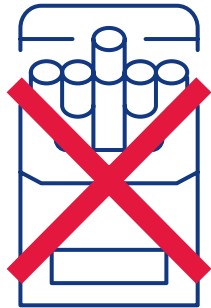

This is bad for our environment and can make our community look dirty.

If you litter, you can be fined:

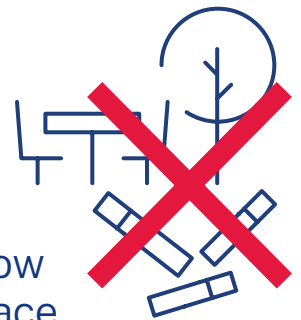

\$60

for every cigarette packet you litter in a public place

\$80

for every unlit cigarette you throw out in a public place

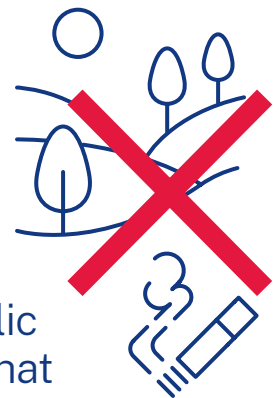

\$660

if you or a passenger throw a lit cigarette out of your car window

Up to **\$750**

for every lit cigarette you throw out in a public place or in a way that is dangerous (it can cause fires!)

Please put all cigarette litter in the bin and keep our environment clean and healthy!
