FAST ultrasound in trauma : One day course at Westmead Hospital

Department of trauma at Westmead is running a one day FAST ultrasound course at Westmead Hospital. Please spread the word and enrol if you are interested. The course usually fills quickly and enrolment will close as soon as the quota is filled.

Course for Ultrasound in Trauma Surgery is specifically designed for medical officers involved in caring for patients with injury secondary to trauma. The course introduces the candidates to the instrumentation and specific application of ultrasound in trauma and is designed to ensure that you will be proficient in practical application at the end of the course. There will be live demo and hands on practical stations on volunteer patients. If you are interested in enrolling for the course or volunteering to be model patients please contact me at fastuscourse@gmail.com.
