## About CIAP

### Library CIAP Training, Support and Registration

The Western Sydney Local Health District Libraries are partnered with CIAP in providing vital information for health professionals. We do this through providing training, support, registration advice, and via linking our catalogue and document delivery services to CIAP.

### CIAP Training

Individual or group training sessions are provided by the Libraries in the Local Health District. You are welcome to attend any of the sessions conducted by the libraries at the facility most convenient to you. Special arrangements can also be made to visit you. For training details and contact information click on the facility link below:

[Auburn](#)   [Blacktown Mount Druitt](#)   [Mental Health](#)   [Westmead and FASS](#)

### Support

For assistance with CIAP either contact your facility's library or your local [CIAP representative](#).
