

Education Research Journal Club

Do You Want to Get Started in Educational Research?

The Westmead Precinct Education Journal Club is promoting education research by health professionals from all disciplines across the Westmead precinct and associated hospital and community health settings. Our aim is to build an education research community at the Westmead precinct. Participants critically appraise journal articles reporting on education research and share research-in-progress on the Westmead precinct.

Monday 3rd September 2018: 12md—1pm

Research Presentation: Katherine Schaffarczyk

Embarking on a research journey? Some tips to consider from a personal reflection.

Journal Article Presentation: Dr Jillian Clarke

Article to be confirmed
