Dr Edward Graham	Orthopaedic Surgeon																		

F: SPECIFIC REQUIREMENTS TO PRACTICE SAFELY DURING THE TERM:

This section may include:

- Courses (e.g. life support, resuscitation)
- Procedural skills
- e-Learning requirements

If there are any specific requirements please provide details of how the trainee will receive this training/will be assessed.

- Registration with the Medical Board of Australia (for PGY2s only).
- Attendance at general hospital orientation and term specific orientation.
- Ability to recognise, manage and appropriately refer to more senior medical staff those patients who are seriously ill.
- Ability to record in the clinical notes: relevant history of illness, physical examination, a provisional diagnosis and issues list, investigations required and a management plan.
- Ability to communicate clearly with other staff, patients and relatives.
- Able to independently perform: venepuncture, arterial blood gas analysis, blood cultures, intravenous cannulation, basic electrocardiogram interpretation
- Ability to call a Medical Emergency Team based on criteria
- Use of universal precautions to avoid exposure to blood, and body fluids and the management of sharps.

G: TERM LEARNING OPPORTUNITIES

Please list top 5 learning opportunities/objectives	1	Develop a knowledge of the pathology of common orthopaedic conditions.
	2	Acquire skills and proficiency in the initial assessment and basic management of the elective orthopaedic patient in Emergency Department under appropriate supervision.
	3	Develop skills in the ordering of appropriate investigations for orthopaedic patients, and in the accurate interpretation of those investigations in consultation with senior staff.
	4	Assess and care for post-operative patients with regard to fluid and electrolyte therapy, pain management, and the recognition and management of post-operative complications under appropriate supervision.
	5	To assist in surgical procedures in the operating theatres in order to develop basic surgical skills.

H: EXPECTATIONS OF THE PREVOCATIONAL TRAINEE

Please list expectations	<p>Throughout the course of this term it is expected that trainees will develop the following skills:</p> <ul style="list-style-type: none"> • Assessment of patients with both acute and chronic surgical illness. • To gain an understanding of how to develop a surgical management plan. • To learn how to investigate surgical patients in an appropriate, thorough and cost effective way. • To develop an understanding of the role of a district hospital in the treatment and care of surgical patients. • To gain operating theatre exposure and participate in a variety of operations under the guidance of AMO and Registrar. • To understand the important role of allied health personnel in the management of surgical patients (i.e. Physiotherapists, Occupational Therapists, Social Workers, Discharge Planners and Dietitians). • Develop a knowledge of the pathology of orthopaedic conditions. • Recognise and manage post-operative hypotension, fever and deep venous thrombosis. • Assess and care for post-operative patients with regard to fluid and electrolyte therapy, pain management, physiotherapy and occupational therapy. • Develop procedural skills including insertion of an intravenous cannula, insertion of an indwelling urinary catheter, suturing of simple wounds, application of plaster casts, application of a resting forearm splint, percutaneous aspiration of joint effusions and ring blocks for minor finger procedures.
---------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Other clinical expectations of the trainee include:

- Daily assessment of all inpatients on the Consultant/Registrar led ward round in order to review patient condition and progress. Subsequent implementation of management plans as instructed by the Consultant / Registrar.
- Organisation of investigations according to protocol and direction.
- Follow-up, review and documentation of all investigations. The Consultant/Registrar should be promptly notified of abnormal investigation results.
- Completion of daily progress notes (including documentation of decisions / treatment plans made on the daily ward round).
- Liaise with Registrar / Consultant about all new admissions, any significant change in a patient's condition, and any patient potentially requiring transfer to another unit.
- Develop proficiency in the performance of routine procedures such as venepuncture, arterial puncture, IV line insertion, bladder catheterisation.
- Develop proficiency in assessment of patients whose conditions have departed from their usual status and to call for assistance if necessary.
- Ability to recognise, manage and appropriately refer to more senior medical staff those patients who are seriously ill. This includes activation of Medical Emergency Team calls under appropriate circumstances.
- Attend to calls by nursing staff to review patients as required.
- Develop skills in dealing with patients and relatives in a professional and compassionate manner.
- Demonstrate proficiency in the assessment of patients so as to be able to determine their suitability for discharge, with consideration of the multidisciplinary issues associated with readiness for discharge.
- Attend handover meetings to ensure continuity of care of patients following the change of shift.
- Completion of discharge summaries in a timely fashion
- Aware of proper requirements for completion of Death Certificates and Cremation Certificates. (Refer to the Death Certificate folder, available in every ward and in the RMO's Common Room)
- To undertake any other duties as requested by the Medical Workforce Unit.

Organisational expectations of the trainee include:

- To be responsible whilst at work to take reasonable care of fellow employees, patients, visitors, clients and volunteers, and to abide with the Western Sydney Local Health District policy and instructions in relation to Occupational Health Safety and Risk through personal involvement.
- To follow the employer's reasonable instructions concerning health and safety in the workplace.
- Use of universal precautions to avoid exposure to blood, and body fluids and the management of sharps.
- To participate in Occupational Health Safety and Risk education and training.
- To report any workplace hazards.
- Assist in the OH&S Risk Management process, by being actively involved in the identification, assessment and control of hazards and associated risks in the workplace.
- To observe the Western Sydney Local Health District Code of Conduct.
- To abide by the smoke free environment policy of Western Sydney Local Health District Protected Disclosure Policy and Procedure.
- To strictly observe the Western Sydney Local Health District policy of confidentiality of patient information.

Patient Load <i>(average per shift)</i>	Patient Load per trainee	8 – 10	Patient load total for team	15 – 20
After hours Roster <i>Does this term include participation in a hospital-wide afterhours roster and if so please advise frequency and the onsite supervision available after hours</i>	<p>Participation in the after-hours general roster is expected.</p> <p>After-hours Cover is shared amongst all Interns and RMOs, providing 1 week-day shift per fortnight, and 1 weekend shift in every 6 weeks.</p> <p>After-hours supervision is via the on-site Medical Officer In-Charge – ED and also by On-call Consultants. There is a Medical Handover that occurs nightly at 2130 in the RMO Common Room, to handover patients from the evening to night shift staff. Attendance at this handover is compulsory.</p>
