Tom M. Chiller, MD, MPHTM

Chief, Mycotic Diseases Branch

Associate Director of Global Programs

Division of Foodborne, Waterborne and Environmental Diseases

Nation Center for Emerging and Zoonotic Infectious Diseases

Centers for Disease Control and Prevention

Tom M Chiller, MD, MPHTM is the Chief of the Mycotic Diseases Branch. As Branch Chief, Dr Chiller provides leadership and support for fungal disease activities nationally and internationally. With over 25 years of experience in global health, Dr Chiller also serves as the Associate Director for Global Programs in the Division of Foodborne, Waterborne and Environmental Diseases (DFWED). Previously, Dr Chiller has held numerous positions in DFWED including Associate Director for Epidemiologic Science and lead of the National Antimicrobial Resistance Monitoring System for Enteric Bacteria (NARMS). He still remains actively involved in antimicrobial resistance activities for fungal and enteric diseases.

Dr Chiller is board certified in infectious diseases and is a faculty member in the Division of Infectious Diseases at the Emory School of Medicine. He practices infectious diseases at the Veterans Affairs Hospital in Atlanta.

During his past decade with the Mycotic Diseases Branch, Dr Chiller has fostered strong international collaborations and helped to drive forward fungal public health programs in sub-Saharan Africa, Latin America and Southeast Asia.
